

# Information & Systems Security Society

## 2018-2019 Sponsorship Guide

The Information and Systems Security Society (ISSS) is a student run Computer Science organization at the University of Texas at Austin dedicated towards instructing students on the topics of computer security. Through our organization's events, students are given exposure to both practical and theoretical attacks on real world systems, encouraging students to write better code, design better infrastructure, and defend their privacy and digital freedom in an increasingly connected world.

We're seeking corporate sponsors to help fund and host organization events, and to educate students on applications of security in the industry. Through sponsorship, companies can broaden their outreach in the community through hosted events and recruiting opportunities while receiving name recognition within the student body.

**INFORMATION &  
SYSTEMS SECURITY SOCIETY**

## Weekly Events

### General Meetings

40+ Students, 1 Hour

We host a general meeting or workshop every two weeks covering some interesting security topic. In previous semesters, we've covered topics such as ROP, Burp Suite, CSRF, and Meltdown/Spectre.

### Capture the Flag (CTF)

70+ Students, 2 Hours

Capture the Flag (CTF) competitions are security competitions designed to challenge students' practical knowledge of system vulnerabilities in a simulated setting. We write, host, and cater CTF challenges every two weeks.

## Special Events

### Fall Networking Dinner

70+ Students, 2 Hours

The Fall Networking Dinner serves as a recruiting opportunity for companies seeking security-minded students, offering a platform for companies to discuss security topics with students in a relaxed environment.

### ISSSCTF

300+ Students, 3+ Hours

ISSSCTF is a CTF competition put on during HackTX in a collaborative effort with Freetail Hackers. Much like the biweekly CTFs, the ISSS officer team creates and writes the CTF challenges.

### Security Day

130+ Students, 8 Hours

Security Day is a day-long cybersecurity focused student event hosted in conjunction with the Department of Computer Science that features several technical talks given by Gold/Silver sponsors and a CTF Competition.

# Sponsorship Levels

Level	Benefits	Scheduling Priority
<b>Gold</b> \$2,000	<ul style="list-style-type: none"><li>• Host a CTF Competition OR a Custom Event</li><li>• Invitation to Networking Dinner (up to 4 representatives)</li><li>• All benefits of the Silver level</li></ul>	1 <sup>st</sup>
<b>Silver</b> \$1,000	<ul style="list-style-type: none"><li>• Host a catered General Meeting (technical talk) / Workshop</li><li>• Invitation to Networking Dinner (up to 2 representatives)</li><li>• Provide a company presence during Security Day</li><li>• Recognition on ISSS T-Shirts and Security Day marketing materials</li><li>• Have Access to mini CTF Resume/Solves data</li><li>• All benefits of the Bronze level</li></ul>	2 <sup>nd</sup>

*Terms and Conditions.* Sponsorship benefits last until the end of the Spring semester of the academic school year. Benefits may be temporarily suspended, due to lack of available funds, for sponsors that have not yet completed the expensing process and confirmed payment with the Department of Computer Science. General meetings and technical talks hosted by sponsors are expected to be educational, respectful of students' time, and not primarily for the purposes of recruiting. Sponsorship levels, benefits, and prices are subject to change every academic year.
